Synthetic Turf and Supplies

TITAN TURF SUPPLY: "Where Quality & Value Mean Something"

Titan Turf Supply – Shipping Policy

Titan Turf Supply requests the customer carefully consider shipping costs.

Typically, it's a smaller percentage of the sales cost, yet depending on the logistics it may be significant.

Please contact us directly to obtain your shipping quote prior to your purchase. Titan Turf Supply prefers direct contact, so we may provide a total estimate of Synthetic Grass & Accessories. We look forward to providing a shipping cost prior to processing of the order.

Due to the oversize nature of the goods the buyer is responsible for unloading the products from the shipping carrier truck.

Please note all products are typically offered typically 15' widths.

Please note: Titan Turf Supply offers and provides "curb side" delivery only.

Rolls may, with prior approval by Titan Turf Supply, but cut desired length and width of the roll, typically 15'.

Any shipping claims must be made to your shipping carrier and Titan Turf Supply.
